

IVolunteer International Inc.,

IMPACT REPORT 2019

empowering action
and mobilizing
movements

Published February 2020

CREATING 7 BILLION VOLUNTEERS.

Local challenges, don't have external solutions. That is why we braved to develop tools that will empower individual volunteers to create and connect their favorite causes. From Sustainable Development Goals to tackling challenges in your community, volunteers are mobilized in the millions. They create change, build movements, and take leadership to make our world a better place. We believe in their passion.

01

DESIGN AND DEVELOP A GEO-CONNECTING MOBILE APPLICATION FOR THE WORLD'S VOLUNTEERS

While engaging volunteers through our platform was important, our focus was set on our main goal: the mobile app. In 2019, we undertook strategic decisions to strengthen it's launch and viability.

02

SPREADING THE MESSAGE: POWER OF VOLUNTEERISM THROUGH PARTNERSHIPS AND COLLABORATION.

As humans, we are all born to be volunteers. Over the years, we have worked to spread the message of volunteerism to every corner of the world. This year, we continued to create more volunteers.

03

STRATEGIC GROWTH: IMPLEMENT AND REALIGN THE ACTION PLAN FOR SUSTAINABILITY AND SCALABILITY.

As a start-up tech-nonprofit, we understood the importance of strengthening the organization's foundation. In 2019, we took strategic measures to increase the organization's sustainability and scalability.

fast forward
accelerate good

With every volunteer we mobilize, we create a better, more united, more peaceful, and more sustainable world.

That fact keeps us going.

One of the biggest privileges I've received in life is to provide leadership to such a dedicated, passionate, and driven group of volunteers. Over the last three years, IVolunteer International's success and global recognition is a direct result of our volunteer staff members and passionate stakeholders.

However, the most amazing part of this journey has been the learning curve. Two years ago, we embarked on a journey with one question: why don't we have 7 billion volunteers? Today, after approximately 760 days of conversations, partnerships, and hands-on learning, we have an idea of what the answer could be. It's complex, not because it is so by default, but because we've tried to provide global solutions to local problems.

Over the last hundred years, many of the local challenges have been mitigated by local solutions. Even today, irrespective of location, heritage, economic status, religion, and political ideologies, people come together to volunteer for causes they care about, whenever they are free. It is so because when challenges erupt to tamper our quality of life, human beings come together as one to find solutions. Our vision is to provide them, the billions of these people the right tools so they can create projects and connect to their favorite volunteer opportunities to take action.

So we asked the right questions, worked with the right partners, and advocated for the right set of policies and procedures to provide these change-making volunteers to be more effective. Over the years, with hard work, perseverance and our humble ability to listen, we've have grown to be an internationally recognized tech-nonprofit.

2019 fueled our momentum. 2019 brought us the most opportunities to serve and the most amount of outreach. 2019 provided us the opportunity to scale, sustain, and strengthen. We've taken our 2019 experience to 2020 and embark on the final lap to launch our Geo-Connecting mobile application in Savannah.

We are in the "business" of empowering people. Empowering people to take action, so they can live better lives. We believe in the power of volunteerism.
#VolunteerMore.

Founder & Executive Director

Understanding our success - tracking the multiplicative effect of social impact.

In 2019, we continued our efforts to gather as much data as possible to measure our success. Here is what we know, to the best of our ability;

6,000+

volunteers connected
to volunteer projects

180+

projects posted
around the world

8+

countries with our
global footprint

50+

volunteers enrolled in
the organization

16+

strategic alliances and
partnerships formed

9+

Sustainable
Development Goals

4+

by products organized
and supported

30K+

overall engagements
on virtual platforms

7+

overall third-party
accolades received

01 DESIGN AND DEVELOP A GEO-CONNECTING MOBILE APPLICATION FOR VOLUNTEERS.

After the completion of the 2018 campaign, we constructed a public-private partnership with East Taylor Creatives, a software company based in Savannah to design and develop our geo-connecting mobile application. Their expertise in software coupled with our expertise in the volunteerism industry set a benchmark in a need-based app design and development.

In 2020, we will move to the development phase of the mobile app with a projected launch date of late Summer 2020. The launch will take place in Savannah, Georgia, as the birthplace of IVolunteer International.

- **Financial Sustainability**

Strategic fundraising events were organized both online and offline to fund the mobile application. A variety of donors, both individual and businesses pledged their support for these campaigns. In 2019, we were able to successfully raise enough funding to complete the designs of the mobile application.

- **Design Leadership**

Akash Shah's role was expanded as Chief Technical Officer of the organization to provide in-house leadership and collaboration to East Taylor Creatives during the mobile app design and development.

02 POWER OF VOLUNTEERISM THROUGH PARTNERSHIPS AND COLLABORATION.

Partnerships enabled IVolunteer International to immerse ourselves in the volunteerism industry to learn, earn hands-on experience, and to also provide them our services.

The Volunteer Groups Alliance (VGA) is a global coalition of organizations that contribute to the Sustainable Development Goals through volunteering. The alliance supports its member organizations to promote the contribution that volunteers make around the world.

The Italian Diplomatic Academy (IDA) is an Italian higher education institution formally associated with the United Nations Department of Global Communications. For three consecutive years, IVolunteer International provided volunteers to their flagship project, Future We Want Model United Nations in NYC.

In 2019, IVolunteer International received Civil Society Association Status by the Department of Global Communications. This allows IVolunteer International to connect to, and work with other civil society organizations around the world to contribute to the Sustainable Development Goals.

03 STRATEGIC GROWTH FOR SUSTAINABILITY AND SCALABILITY.

In 2018, IVolunteer International created our first 3-year action plan to assess our success and to ensure strategic direction of the organization. Over the years, although the plan has been updated, our direction has been set upwards.

- **IVOLUNTEER SERIES: Providing a platform for change-makers from around the world to share inspiration. Here are some of our 2019 guests:**

IVolunteer Series, an online conversation hosting change-makers from around the world was implemented in 2019 to spread inspiration for young people to take action in their local communities. The talk-show has hosted 15 individuals so far ranging from a variety of professions, talking about their local and national impact.

- **Writers' Council: a platform for change-making through articles**

The Writers' Council was upgraded in 2019. Maulline Gragau joined the team as the Sub-Editor under Balkis Chaabane's leadership. Balkis's vision for the Writers' Council raised the bar of our online blog in both quality and quantity. The first cohort of the Writers graduated from IVolunteer International in 2019.

- **BirthdayDeed: Inspiring people around the world to do good on their birthday.**

BirthdayDeed was implemented in 2018, commemorating IVolunteer International's 1-year anniversary. As of 2019, over 500 people have signed up to receive a notification to do good on their birthday. Each good-doer shares their experience online using the hashtag #BirthdayDeed.

BOARD OF DIRECTORS

IVolunteer International's board of directors provide strategic guidance and leadership to the overall organization, enabling the nonprofit to achieve excellence in all its activities.
